Chain seven and join with slip stitch to first chain.

Chain 2 (counts as first htc) make 15 htc into the ring (16 total) join into top of starting chain 2.

Chain 3 miss a stitch slip stitch in next stitch and continue round creating eight loops. On the last chain three (to create the last loop) join by creating a double crochet into the first loop made.

After the double crochet create a htc, tc, htc, dc in the loop. Dc into the next loop and htc, tc, htc dc and so on in each loop to create the petals. After the last dc join into the top of the first dc.

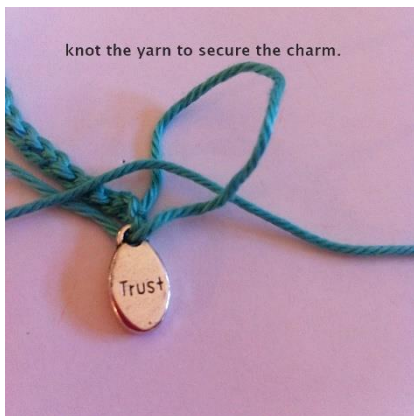

Chain 60. and then thread the charm onto the end of the yarn.

As you hold the charm, make another chain.

knot the yarn to secure the charm.

Use a darning needle to go through the chain a few times to secure it a bit more and then cut the yarn. I use a small blob of pva glue to ensure the end of the yarn doesn't end up unraveling in use.
